

Give instead of trying to gain

Choose peace over pursuing war

Point inwards instead of outwards

Choose pain over pleasure

Reach out instead of holding in

Instead of trying to win, avoid losing

Look for where you agree instead of where you don't

Do it yourself instead of waiting for others

Speak plainly instead of sugar coating

Use actions over using words

Ask questions over talking

Make your own path instead of following

Choose quality over quantity

Lead with heart instead of mind

Get there using less instead of more

You may be broke, but do not be poor ★

So that you won't ever need to compromise your core values

It is not reckless if you succeed

Understand the difference between want & need

Play no games

sincerely,

James
