

Eyes

tell so much
whether they will rise
or use a crutch

A window to the soul
and ~~a~~ door to the heart
Sometimes whole
Other times in parts

They may roll
or be still like art
when sad they ~~waters~~
when happy they twinkle

They may be ~~cannel~~ like a weather
or have a slight wrinkle
The truth is
they are more than just Gickle

Take a look deep
then look farther
beneath the color
there is a profound allure
