

Abundance is the belief between
Yes and no.

A vote for faith in the powers that be
while internally "there's not enough" may grow.
Instead of the illusion of choice it is
the choice of delusion.

To say, there is a way to be
wealthy and stealthy
fatherly and healthy
kind and calm
A killer and monster

AND on and on it goes.
A ship manned by conviction
towards land that is paradise.

A place more than nice
but may feel like rolling the dice.
Not to worry, that is just the price
Because if you believe

There is no chess
the answer is yes.
where there is game
or a money rain
remember this
givers gain
