

Questions, Choices
Thoughts, beliefs
Ego, Pride
Logic, Pain
it has begun to rain again

Heart, Love
Depth, Danger
Flow, Feelings
Breathe Deep
A tear rolls down my cheek

I have shown all of me last night
To a girl that is oh so bright.

Indecision, Fear
Trauma, tepid
Worry, walls
broken down
Now I wait for the sound

sleepless night
heavy eyes
fast thoughts
pulse pounding
when will my phone start ringing

Today, Tonight
Tomorrow, Terrible
Please
Dear world
Let her know
I am for her
as she is for me
But what will she choose
I can't tell

I want to yell
To show her I trust
But intrude that would
so wait I must
when she calls me
I will know
what it has cost
For in my own mind, I was lost.

Despite her choice
I will hear my voice
Tell her thank you
For she is one that has changed my heart.
