

The mind at war is an interesting thing
the sort of mentality that makes a king

Laser focus, distractions fade
Energy, mental and physical flow to your aid
Go to work

Your wave crashes into the task
Seeps into the cracks
Seeking, hunting, faster, hungry
In pursuit of the goal, only input and output
Efficiency on the route took

No ego, only Guel.

doesn't matter if you have to countscot

You want it, and know you will have it
even if you have to climb from the mountaintop

This is the way of the winner
Forgotten is dinner or time
