

We have only chatted briefly, but you have affected me

You see you gave wisdom for free

"Loyalty is the only asset you can't buy"
or another that may help me yet to fly.

"Poor people working on smaller deals are more greedy"

Adi, when you come to mind, so does intensity.

A language I speak and feel as a tree does the breeze.

Your energy is like youth and you seek truth

You consider others and if it is beneficial to them

A longways from the superficial and that is special.

Thank you for your kindness I have taken it with mindfulness
